Summary

Full-Stack Web Developer with 2+ years of experience building scalable web applications using Next.js, NestJS, React.js, and Node.js. Delivered 15+ production systems and 20+ major features across SaaS, e-commerce, and fleet management platforms for companies and freelance clients. Experienced in designing and developing dashboards, APIs, and multi-role systems with a strong focus on performance, clean architecture, and user experience. Skilled in custom integrations for the **Salla e-commerce platform**, with a strong interest in software engineering, leadership, and mentoring.

Experience

Full-Stack Web Developer

Nov 2025 – Present

Good Job Production

- Developing scalable web applications using Next.js, NestJS, and PostgreSQL.
- Building custom integrations and features for the **Salla e-commerce platform**.
- Collaborating with teams to deliver responsive and optimized user experiences.
- Improving application performance, security, and maintainability.

MEAN-Stack Web Development Intern

2025

NTI Summer Training Program

- Completed practical training in MongoDB, Express.js, Angular, and Node.js.
- Built full-stack applications using the MEAN stack.

Projects

Theqa

Company Website

- Worked as **Tech Lead** building enterprise systems for a Saudi media and events company.
- Developed platforms for events, media services, job management, and internal operations automation.
- Led backend architecture, deployment, and technical strategy across multiple products.

Khaber Suadi

Live Demo

- Built a Saudi news platform with a multi-role content management system and editorial workflow.
- Developed using **Next.js**, **NestJS**, and PostgreSQL with scalable architecture and secure access control.

ECOVA

Live Demo

- Built a sustainable marketplace for recycled products using **NestJS**, **Next.js**, and PostgreSQL.

Bookly

Live Demo

- Developed an event booking and management platform using **NestJS**, **Next.js**, and PostgreSQL.

Leadership & Mentorship

- Backend Node.js Mentor at CIS Team

2024 – 2026

- Backend Supervisor at CAT Team

2025

- Frontend Instructor at Technical Gates Event

2025

Awards & Competitions

DAWAR Fleet Management Solution — Full-Stack Developer

Co-founded and developed a smart fleet management platform.

- **1st Place** — Mint EG Bank & Startup Factory Hackathon

Nov 2025

- **3rd Place** — ICE Alex & Plan International

Dec 2025

- **Top 8 Finalist** — Innovest, League of Arab States

Dec 2025 – Jan 2026

- **Top 20 Semi-Finalist** — Huawei Developer Competition 2025

Nov 2025 – Dec 2025

- **1st Place (Mansoura) & Regional Qualifier** — Rally Egypt

Jan 2026 – May 2026

- **National Finalist** — Hult Prize Egypt

Feb 2026 – May 2026

- **1st Place** — Founders Live Pitch Competition

Feb 2026

World Computer Hacker League (ICP Global Hackathon)

Jul 2025 – Oct 2025

Full-Stack & Blockchain Developer

- Built a decentralized full-stack platform using Solidity, Rust, and Internet Identity authentication.
- Finalist representing Egypt and Africa after national and regional rankings.

Skills

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL, WebSocket

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material-UI

Databases: MongoDB, PostgreSQL, MySQL

Tools & Cloud: Docker, Kubernetes, CI/CD, AWS, Azure, Vercel, Firebase, Netlify, Salla Platform

Testing & Practices: Jest, Unit Testing, Agile, SCRUM, Git, GitHub

Education

B.Sc. Computer and Information Sciences — Mansoura University

Sep 2022 – June 2026

Relevant coursework: Data Structures, Algorithms, OOP, DBMS, Software Engineering, AI Fundamentals

Orange Digital Center

Sep 2022 – May 2023

Software Engineering Program

- Completed intensive training in software engineering fundamentals, including OOP, databases, problem solving, web development, and professional development practices.
